

ArborTie®

Tree Tie

Application:

- To tie up and anchor trees.

ArborTie:

ArborTie tree tie is a specially produced tie with unique properties, with rounded-off edges that prevent cutting the bark, a tensile strength of 400 kg, only 2 cm wide and with an aesthetic olive green colour.

If ArborTie is not removed, it will decompose by UV radiation after three to four years.

Properties:

- Easy to install
- Strong and flexible
- Allows trees enough freedom of movement
- High wind resistance
- Economical
- Flexible tie material prevents damage to tree trunks.
- Automatically dissolved by UV radiation after three to four years (depending on degree of UV radiation)

Material:

- Flat-woven polypropylene
- Closing stitch with round edge
- Available in olive green

Specifications:

Description	KG
Tensile strength	400

Packaging and sizes:

Rolls			
Length	Width	Thickness	Per box
76 m	2 cm	± 2 mm	12 rolls

A box weighs ± 9 kg.
