

ArborGard®

Tree Trunk Protector

Application:

- To protect trees against mowing damage and rodents.

ArborGard:

ArborGard trunk protector provides a good and efficient method to protect trees against mowing damage and rodents. UV-resistant and made in unobtrusive grey.

ArborGard adapts to the growing tree trunk. Contrary to other trunk protectors ArborGard never loses its shape under the influence of ultraviolet radiation (sunlight).

ArborGard has optimum aeration holes to prevent insect attacks and rotting of the tree bark.

ArborGard is easy to install, 22.5 cm high and protects trunks to a diameter of 10cm. For larger trees two or more ArborGards can be linked together.

Properties:

- Easy to install
- Does not check the growth of tree trunks
- UV proof
- With optimum aeration holes
- Prevents burning by the sun

Material:

- Recyclable polyethylene

Packaging and sizes:

Size of wrapper

| Height | Width | Thickness | Per box |
|---------|---------|-----------|-----------|
| 22,5 cm | 29,5 cm | 1,52 mm | 100 items |

(trunk diameter 10 cm)
